Growth in Support

National benchmarks were set in 2000

“Effective and Responsible
Mentoring Programs”

AYMN & VYMA

The national and Victorian peak bodies are established in 2005 / 2006

Boom time 2000's

We see an explosions of programs.

Mentoring is so hot right now!

Too much of a good thing???

Program turnover and a dilution of
traditional mentoring models

Victorian Context

- Since 2005, programs have x3
- Over 240 programs in VIC
- Over 7000 young people
- and 6000 volunteer mentors
- 45% metro based
- 55% regionally based
- Mix of SBM and CBM

Some questions around quality
practice begin to form....

How do we manage quality?

(and hopefully avoid disasters)

How do we identify quality?

(and prove it to others)

Thus the QA Project is born!

- Support of 5 philanthropic funders
- Sector Consultation
- Scoping and Design
- Development
- More Sector Consultation

How the QA Project works...

1. Managerial Commitment
